## HERO SYSTEM BACKGROUND SHEET

**Character Name:** Shard's Lab

Alternate IDs: Staten Island, New York

Player Name: Jennifer Griffin

Converted from the old family servant's quarters. From the outside, it looks like a pleasant little brick cottage. Inside, Shard has several labs and a bit of living space for herself. The chemistry lab has been especially reinforced (at Diamondback's insistence) to be able to better withstand potential explosions and to keep any noxious fluids or gasses from escaping.
